RE: Legal Name Change of Pier 91 Facility

Dear Ms. Sikorski:

Effective January 6, 1992, the legal name of Chemical Processors, Inc. (Chempro) has been changed to Burlington Environmental Inc.. This does not reflect a change in ownership or corporate directors; it is only a legal change in the company's name.

Please revise your records to reflect this name change. All future correspondence should be addressed to Burlington Environmental Inc.. Correspondence and submittals from our company to you will also be sent in the name of Burlington Environmental rather than Chempro.

Burlington Environmental's transportation companies (Resource Recovery Corporation, United Drain Oil, and Gasoline Tank Service) are not changing their names at this time.

I can be reached 223-0500 if you have any questions about this information.

Sincerely,

Gary D. Kollman  
Environmental Scientist
